Dear Milovich,

Thank you for everything and when appropriate, you can give me the bill.

I also wanted to know if you will be able to put in the new screen doors, door awning and gutter that we spoke about and how much everything will come too when you do these projects? We would like the glass from the front door, replaced for the screen door, since the glass is in good repair, if that is possible, and a new glass door at the very front of the porch. Please let me know what you think?

I appreciate everything and the quality you put into your work. Thank you, once again for being there for me and my family. We sorely needed the assistance.

Hopefully soon, we can do business again in the very near future. Sincerely,
